

Manuela Mensah//Random Autobiography

I'm scared of some heights
My friends say I'm mean but that's just me
I shut my finger on my basement door when I was 5
My favorite # is 4 for basketball because I chose that number in 7th grade
I love roller skating and ice skating
I had many nicknames at my old school
I'm terrified of scary movies
When I was younger I stole candy from a store
I get mad really easily
I'm scared of moths and spiders
My best friend Ciara is a day older than me
I dislike clowns
I lost my grandmother 3 weeks ago
My grandfather 4 years ago
I only met my grandfather but never my grandmother
I went almost everywhere when I was younger
My favorite place that I went to was Toronto
Most times I'm scared of being myself
I get influenced by many stupid things most times
I have a creative imagination
My parents always said I was special in my own way
I keep my thoughts closed and my mind open
I'm quiet in class but loud with my friends
I inspire myself most times
I feel like my friends know me more than I know myself
I drift into my own thoughts in class
I like to think of myself as unique
I was born at 7 am and my sister 7 pm
I lived in Queens for 4 years and moved to Newburgh in 2006
I drifted away from some of my friends
